SYRACUSE?! No, I thought they were in eastern PA. Let's go with Hoppe/Basso. Perhaps Arcadis/Tierra can help by sending a summary? Or maybe someone just uses the progress report summaries?

Have to admit I was hoping to not ask them to come down from Syracuse, especially since I can't be there if questions come up. I was leaning more towards asking them to do a slightly bigger wrap up presentation in September when all the backfilling is done and the more active work aside from physical deconstruction will be done. Does that change your mind at all? If not, I'll call Mike Hoppe and see if he can attend to answer questions in my place.

My preference is for Arcadis to do a brief presentation.

Hi Doug.

Since I won't be able to attend, I'm just wondering what's on the agenda for next week? Will you be looking for an update/presentation on the Phase 1 removal? If so, something simple or more formal? I can either just give some bullets to Dave to share or I could ask ARCADIS to come and present something. Please get back to me so I can give ARCADIS some notice if necessary.

Thanks!

Liz

Subject: Passaic CAG Meeting Next Thursday August 2

Hi Everyone:

We are planning to hold a Passaic CAG meeting next Thursday August 2, 6 PM at St. James Church

Since we have not been able to hold a meeting this summer, we want to get one in before the fall. There is a bit of activity on the river that we want to catch up on, as well as several CAG products to review.

I realize this is short notice and summer is always a difficult time to have meetings, but I hope that many of you will be able to attend.

Please find attached the summary of the last CAG meeting and the latest version of the request for technical support to be finalized at this meeting.

thanks  
Doug
